Communiqué

13, Tsothohrkó:wa/January 2010

For Immediate Release

The Kateri Memorial Hospital Centre would like to inform the community that the In-Patient Department is now **OPEN** to visitors.

In order to limit the spread of illness, the following restrictions have been put in place for families wishing to visit patients at the hospital.

- Visitation is limited to one visitor at a time.
- Visitation is limited to one resident at a time.
- Visitors must report to the Nursing Station before visiting.
- For clients under Droplet Precautions visitors must wear a mask and gloves for the duration of the visit. At the end of the visit Sterigel is to be applied after removal of the gloves, and again after removal of the mask upon exit from the clients room. The visitor is to exit the In-Patient Department promptly without visiting any other clients. This is to reduce the risk for indirect transmission between clients.

For any questions, please do not hesitate to contact the Kateri Memorial Hospital Centre – InfectionPrevention and Control Nurse at (450) 638-3930 Extension 322.
